SAN FRANCISCO GRAIN SHIPMENTS.

THE EDITOR OF THE OREGONIAN
Your reporter yesterday gave the version of what wheat merchants say there should be a rush of shipment of wheat to San Francisco over the shipping ports and it seems to me that it has given on the true basis for it.
There is now a blockade of wheat at Astoria and for San Francisco great difficulty is being experienced. The Oregon Malting & Navigation company is the owner of their boats and they are not being used as it is not profitable to them. The reason for this is that the price of wheat is so simply because they could not get it with in the time of the harvest. I told you one of the interview that he said that the price of wheat is so simply because they could not get it with in the time of the harvest. I told you one of the interview that he said that the price of wheat is so simply because they could not get it with in the time of the harvest.
